Thank you to all for your participation and help in making the Pollinator Garden Design Workshop a success. And also for your patience as we worked to upload the PPT deck for your use. The PPT deck and handouts are available on the Citizens for Sustainability website. <https://citizensforsustainability.org/pollinator-gardens/>

Lona Doolan has asked that I share her email address if anybody wants to talk more about pollinator gardens. Her email is [mill0682@umn.edu](mailto:mill0682@umn.edu)

Two community groups are also available for those who might want to connect and work with other gardeners. All are welcome to join.

### **St. Anthony Village Gardeners**

- - It's a group that maintains the garden at Trillium Park and flowers in front of city hall and on the boulevard at the corner of Silver Lake Road / St. Anthony Parkway.
- - We meet monthly throughout the summer to weed at Trillium and then enjoy a DQ treat afterwards
- - Pre-covid we held periodic meetings about different gardening topics, an annual flower sale fundraiser at Chenoweths, an annual lunch at Axels, and occasionally organized garden tours to nearby locations.
- Contact: [anita.davis19@gmail.com](mailto:anita.davis19@gmail.com)

### **Friends of the Parks**

- We maintain the demonstration pollinator gardens and bee lawn in Trillium Park
- We hope to do more work creating pollinator habitat in our parks
- Facebook page: <https://www.facebook.com/Friends-of-the-Parks-St-Anthony-Village-MN-115119483205964/>

Spring is coming!

Renee R Reed

St. Anthony Village Parks and Environmental Commission (PEC)

**Subject:** Pollinator Garden Design Workshop Questionnaire

I am Renee Reed, a commissioner on the Saint Anthony Village (SAV) Park and Environmental Commission (PEC). The PEC, along with Citizens for Sustainability, SAV Community Services and SAV Code Official are sponsoring the Pollinator Garden Design Workshop. You are receiving this email because you signed up for this coming Wednesday, March 23rd's workshop from 7pm - 8:30pm.

As we prepare for the workshop, we would like to get more information on what you, as a participant, want from this workshop. Answering the following two brief questions will help us ensure that we have the necessary information available for you.

Level of gardening experience?

(For example: Beginner? Expert? Somewhere in between?)

Do you have a specific project in mind?

(For example: Want to start a pollinator garden? Have a garden but it's a mess and you need ideas on how to clean it up? Want to extend or enhance a current garden?)

Thank you for your feedback and we are looking forward to your participation.

Renee Reed
