

## Silver Lake Road Flood Reduction Project Project and Appurtenant Work Construction Update #6

### Current Events

The Contractor has continued construction at the retaining wall and continued the installation of storm sewer along the east side of Silver Lake Road north of Silver Lane. Silver Lake Road will be re-opened to traffic no later than end of day Friday, May 31, 2019 and will allow two-way traffic, with left turn restrictions at Silver Lane.

To accommodate construction operations, lane shifts are anticipated throughout the duration of the project.

Metro Transit bus routes #25 and #825 will continue to be detoured during construction. Bus stop relocations have been posted by Metro Transit at the individual bus stops along Silver Lake Road between County Road D and County Road E.

### Future Events

Contractor will continue to install storm sewer along the east side of Silver Lake Road next week, week of June 3<sup>rd</sup> and will continue construction moving south through Silver Lane. It is anticipated that the intersection of Silver Lane will be closed to eastbound traffic approximately towards the middle of next-week to allow for the storm sewer installation, **weather permitting**.

#### **Lane Closures – June 1 through mid-July 2019**

Silver Lake Road will allow two-way traffic, with left turn restrictions at Silver Lane, for the duration of the project. To accommodate construction operations, lane shifts are anticipated throughout the duration of the project.

Periodic updates to traffic impacts will be provided throughout the project as they become available.

### Tips of the Week

- Please observe posted detour and warning signs.
- Slow down and watch for uneven surfaces.
- Stay alert! Watch for signs, equipment, and workers
- Please remind children to stay away from the construction site, equipment, and stockpiles of materials.
- Access through the site may change throughout the day as construction progresses; your patience is appreciated.
