8th February, 2017

City of St. Anthony Village
3301 Silver Lake Rd NE
St Anthony, MN 55418

Dear Mayor Jerry Faust, Council Members and City Staff:

I am writing to make you aware of an agreement reached with the remaining residents regarding the upcoming closure of the Lowry Grove Manufactured Home Park. The Village offered to extend the park's closure date to June 30, 2017 and the residents have agreed to move out not later than that time.

From the beginning, The Village, LLC has been engaged in efforts to assist the residents of Lowry Grove during this time of transition. Initially, that included working with the school district on options to ensure school age children would be allowed to complete the school year without changing schools. In an effort to further ease the transition for families living in the park, The Village, LLC offered to move the closing date to the end of June so that the residents could wait to move until after the school year.

We offered to delay the park closure three months as a way of mitigating the effect of the closure on the residents and their children and we are glad that the residents accepted our offer. Please let me know if you have any questions about the new closing date. I am proud of my partners in making this compassionate gesture.

Sincerely,

A handwritten signature in black ink, appearing to read 'Traci Tomas', with a stylized flourish at the end.

Traci Tomas
Vice President
