Please select which commission you are applying for.*

Planning

In order for the Mayor and Council members to have a better understanding of your background and interests, please provide the following information.

Why do you want to serve on a St. Anthony Village Commission?*

I work in real estate and want to use my 1st hand experience to help my community. I use "real estate" intentionally as I work in a number of specialties including Realtor, property management, and have flipped homes. Before moving to MN in 2012, I worked for the City of Golden, CO in their Urban Renewal Authority after I graduated from the University of Colorado with my Master's in Urban Planning. I focused on tax increment financing but am very familiar with zoning, long rang planning, stakeholder involvement and other aspects of the public planning process. In short I want to use my skills and experience to make Saint Anthony an even better community.

Please list your prior experience serving on a Board, Commission, etc.*

I'm a member of the Environmental Board of Minneapolis Area Association of Realtors. There we're working with community partners to encourage Realtors to promote sustainability. Additionally we're partnering with local builders & remodelers to help create housing that is a viable product for the next 100 years. This means deep energy retrofits of existing building and well insulated buildings that consume less energy. During my tenure with Golden, CO I attended monthly board meetings for our Urban Renewal Authority. While not a member of the board, I became very familiar with the public meeting process including Robert's Rules of Order. Also at that time, I served on the community advisory board for the 2011 US Pro Cycling Challenge. In short think of it as a US version of the Tour de France resulting in a \$1.3M impact on our community over a 3 day weekend.
