

St. Anthony Village 2023 Public Works Annual Report

Public Works Mission Statement

The Mission of the Public Works Department is to provide effective and efficient design, construction operation and maintenance of the City's infrastructure. The Public Works Department is organized into six divisions. These divisions work together to coordinate services and enhance the quality of life to our residents, businesses and visitors by providing safe, reliable and effective service. The service we provide will always be consistent with the vision and goals of the community.

Emerald Ash Borer Management Plan

Adopted in 2023

- Proactively monitor and inspect
- Use trunk-injected insecticide every two years
- Engage in structured removals of dead/poor-fair condition ash trees
- 35 trees currently being treated
- 29 trees removed

Inflow and Infiltration

Inflow and Infiltration (I/I) is the excess flow of clear water into the City's sanitary sewer system.

- On March 1, 2023, Ordinance 2022-09 went into effect requiring all point-of-sales and rental license renewals be inspected for I/I.
- Submitted inspection videos are reviewed by Public Works and a determination of the presence of I/I is made.
- 184 videos submitted
- 20% required repairs

Engineering Division Projects 2023

Harding Pond Restoration

- Located between Silver Lake Rd & Harding St and 30th Ave & 31st Ave
- Approximately 2,500 cubic yards of sediment removed
- Stormwater retention capacity improved from 1' average depth to 3' average depth
- Invasive vegetation removed
- Storm sewer pipe and drainage structure improvements

Engineering Division Projects 2023

Reclamite

- Pavement rejuvenation process
- Improves the asphalt's durability, flexibility, and viscosity
- The product is sprayed on the road surface with a distributor truck and covered with sand
- The sand is swept up the following day
- 32nd Ave, Croft Dr, Macalaster Dr, Foss Rd, Highcrest Rd, Silver Ln, and Silver Lake Terr

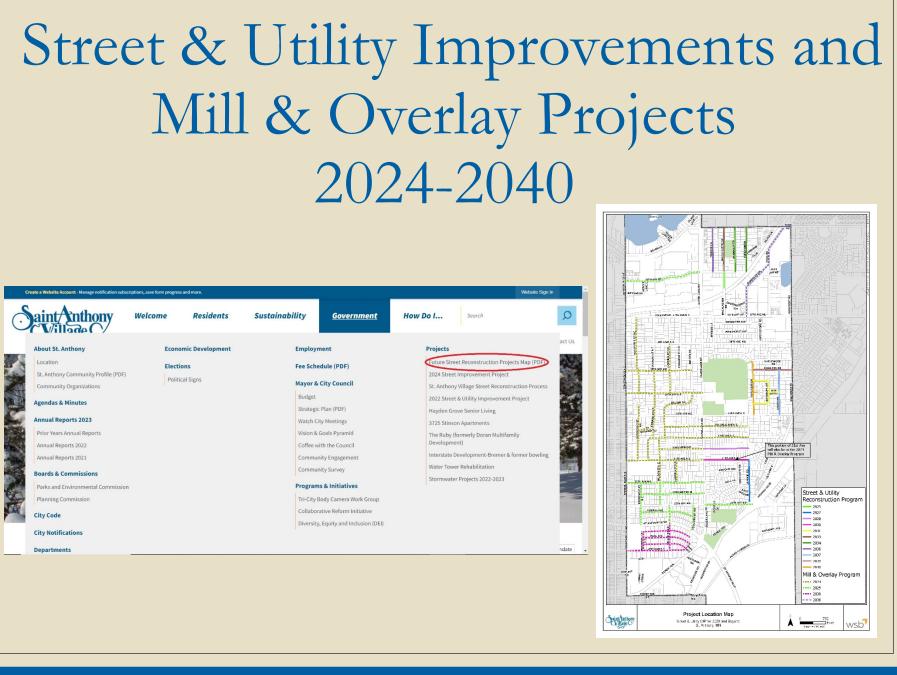

Engineering Division Projects 2024

Mill & Overlay

- Northwest side of the city
- Streets are ~20-25 years old
- 2" of pavement milled off and re-paved

Street & Utility Improvements and Mill & Overlay Projects 2024-2040

2023 Sustainability Initiatives

Sustainability in the Comprehensive Plan

Annual City-wide Spring Clean-Up Event at PWD Facility

Stormwater Debris Interceptors

Cardboard Recycling Event at PWD Facility
