

# Village NOTES

Fall 2016

“A Village in the City”

## *Note from the Mayor*

## IN THIS EDITION:

- Police Body Camera Workgroup
- Fire Department Open House
- Election Information
- City Commission Opportunities
- Tech Dump

Dear Residents,

As I began this newsletter – it is difficult to find the right tenor to attempt to provide perspective. This has been a challenging time for our residents, city staff and the metropolitan region. But as I write this in spite of things, I see hope for us in regards to equity. Many public figures are now speaking about the need for inclusion - I see this across the nation in multiple media reports. Hennepin county's legal system is reviewing how court appearances and minor infractions are handled in terms of cost and notification. Minnesota cities are looking at best practices in policing and sharing those with each other and coming together to advance that goal. So let us find the good out of adversity and move the issue steadily yet purposely forward. See the City Manager's article on our working group formulation.

In addition, city business on other fronts continue. The Mirror Lake flooding issue that occurred in July 2011 has moved to the point of being funded and with construction beginning now for increased capacity to store more water along with better controls to manage rain events in accordance within the new rain standards (i.e. 25% greater than previous standard). These efforts should afford the residents of Mirror Lake and the adjacent business owners with a greater sense of flood mitigation security.

The Advanced Oxidation Process (AOP) plant that addresses the emerging 1.4 Dioxane plume was approved and construction beginning on the new plant. This will be connected to our existing water filtration plant and should be completed by early fall 2017. This is being funded by the United States Army and it needs to be highlighted that they are willing partners in our efforts. The Minnesota Department of Health (MDH) and the Minnesota Pollution Control Agency (MPCA) were of immense assistance to our staff and extremely supportive of the approach the city has taken. We need to be grateful to our capable and hardworking staff in coordination with these federal and state agencies.

Much has occurred this past quarter some within our scope of vision, some outside our scope of vision. But regardless of events, the staff has to respond to all those incidents and in many cases there is no playbook or past practices. We are a city without the luxury of redundancy in personnel positions to fill in during prolonged emergencies consequently the staff has to expend extraordinary time and effort to continue the mission of the city – that is serving all of its residents in the overall best interests of the community. That does not mean that everything is completed to everyone's satisfaction as that is impossible to accomplish. However even a small step forward is way better than a step back or the status quo – we will continue forward and not rest on our past laurels.

My best regards  
Jerry Faust

## POLICE DEPARTMENT BODY CAMERA WORKGROUP

by Mark Casey, City Manager

**T**he City of St. Anthony is taking applications from St. Anthony residents who wish to serve on the newly established work group for the St. Anthony Police Department on policies for body worn cameras. An application may be obtained by visiting the City's website at [www.ci.saint-anthony.mn.us](http://www.ci.saint-anthony.mn.us) or available at City Hall.

The last day to submit your application is Monday, October 17, 2016. The City Council will review all applications and a selected number of applicants will be interviewed by the City Council on Wednesday, November 2, 2016. Each respective city council will appoint three residents from their community.

The work group's purpose will be to review current police policies and protocols, best practices and trends, policy development and present policy recommendations to Police Chief, City Manager and St. Anthony City Council for officer worn cameras.

The work group will be comprised of residents of St. Anthony, Falcon Heights and Lauderdale, staff, and City Council liaisons from St. Anthony, Falcon Heights and Lauderdale. Dates and times of the work group meetings have yet to be determined. We anticipate the meetings will be on weekday evenings.

## FIRE DEPARTMENT OPEN HOUSE

**Saturday, October 8, 2016**

**1:00 to 4:00 pm**

**3505 Silver Lake Road**

**•Fire Station tours•Try on the gear!**

**•Hot Dogs•S'mores and Lemonade•Hands-on activities!**

Watch the website for information on when Santa will be strolling through St. Anthony on a fire truck!

## **GENERAL ELECTION**

**Tuesday November 8th, 2016**  
Polls open 7:00 a.m. to 8:00 p.m.

### **DID YOU WANT TO VOTE ABSENTEE?**

- Apply online! Go to [www.co.ramsey.mn.us/elections](http://www.co.ramsey.mn.us/elections) and click on the link for Vote before election day.

- Stop by City Hall! You can stop by City Hall between September 23rd and November 7th during regular business hours and vote absentee.

City Hall will be open extended hours for absentee voting on Saturday, November 5th, from 10:00 a.m. to 3:00 p.m. and Monday, November 7th, from 8:00 a.m. to 5:00 p.m.

### **Village Big Rigs**

Saturday, October 8, 2016

1:00 to 4:00 pm

City Hall upper parking lot

Come see the big rigs that keep St. Anthony trucking. Get a hands on experience seeing rigs like a police car, snow plow and more. Come explore the day away, and it's free!

### **RECYCLE THE RIGHT STUFF**

Recycling benefits our communities and the environment. We all want to recycle as much as we can, but some things just don't belong in the recycling bin. They damage sorting machines or pose a danger to workers. These items typically include plastic bags, needle and syringes, cords and string lights, food waste, and diapers. To learn how to properly dispose of these items, go to [RamseyRecycles.com](http://RamseyRecycles.com) and click on A to Z Recycling Guide or call 651-633-EASY (3279), answered 24/7.

### **ADOPT A FIRE HYDRANT**

The St. Anthony Fire Department appreciates residents who help keep the snow cleared away from pathways and fire hydrants. Accumulation of excess snow can block the view of responding fire personnel to fire hydrant locations. Precious time is lost when firefighters have to look for and uncover fire hydrants. Occasionally shoveling around the fire hydrants keeps them accessible for firefighters in case of a fire. Thank you for your assistance in making St. Anthony a safer community!

### **SNOWBIRDS**

Before leaving St. Anthony for a warmer climate, contact the St. Anthony Police Department at 612-782-3350 and the Utility Billing Department at 612-782-3318.

### **WATER & SEWER EMERGENCIES**

If you have a water or sewer emergency, contact City Hall immediately at 612-782-3301 during normal business hours. After business hours, contact the Fire Department at 612-782-3400. City crews will be dispatched to evaluate the situation and assist the property owner. Remember, the property owner is responsible for maintaining water or sanitary sewer service from their building up to and including the connection to the water main and sewer lines.

## ENGINEERING UPDATES

### 2017 Street and Utility Improvement Project

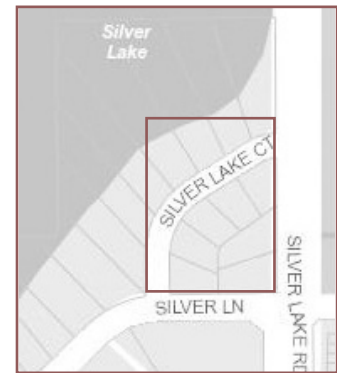

The proposed 2017 Street and Utility Improvements Project consist of reconstructing the following roadways:

- Penrod Lane from 36th Avenue to Skycroft Drive
- Skycroft Drive from Penrod Lane to Maplewood Drive
- Chelmsford Road from 36th Avenue to Maplewood Drive
- Maplewood Drive from Skycroft Drive to Highcrest Road (including cul-de-sacs to the north)

Proposed utility improvements include sanitary sewer and water main replacement inclusive of services to the utility easement, replacement of all hydrants, water valves, and manholes that do not meet current City standards; as well as new storm sewer facilities.

Also, proposed for improvement in 2017 is the bituminous mill and overlay along Silver Lake Court from Silver Lane to the cul-de-sac (illustrated below).

### 2016 Street and Utility Improvement Project

The Contractor has substantially completed street and utility improvements, including bituminous base paving. Restoration and clean-up will continue this fall and the contractor will return in the spring to complete final turf establishment and place the final layer of asphalt pavement.

### Mirror Lake Improvements

Mirror Lake was drained last month to allow many of the frogs, toads and turtles to relocate to new homes for their winter hibernation. The contractor is expected to begin removing trees and shrubs from around Mirror Lake later in the fall or early winter. The exact date is not yet known.

Once the pond bottom freezes this winter, the Contractor will begin excavating the years of accumulated sediment and pollutants from the pond. This will improve the quality of water in Mirror Lake and reduce

the pollutants (mainly nutrients like Phosphorus) that currently leave the Lake and flow downstream to Pike and Long Lakes in the City of New Brighton. These improvements in Mirror Lake will help improve the water quality of these lakes, Rice Creek and the Mississippi River.

Mirror Lake will also have a normal water elevation 2-feet lower than before the project, allowing an increase in the volume of flood water that can be stored in the lake during significant rain events. This will improve the flood protection to adjacent and downstream

properties.

Final shoreline restoration with native pollinator species will occur in the spring of 2017.

The project is being funded with contributions from a Clean Water Legacy Grant, Rice Creek Watershed District and the City of St. Anthony.

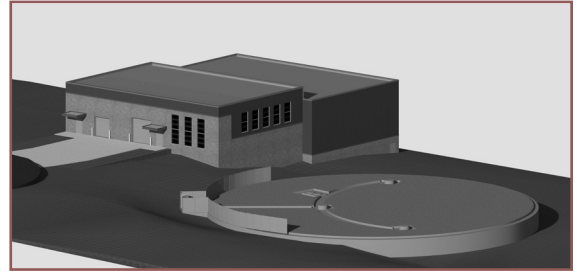

## ENGINEERING UPDATES

### Advanced Oxidation Process Water Treatment Plant Expansion

The City of St. Anthony awarded the construction contract for the Advanced Oxidation Process (AOP) water treatment plant expansion to Gridor Construction at the September 13th, Council Meeting. This plant expansion is being built to remove 1, 4 Dioxane from the City's water system.

The likely source of this pollutant is the Twin Cities Army Ammunition Plant. Since discovering very low levels of this pollutant in the spring of 2015, the City has been working together with the Minnesota Department of Health and the United States Army to develop the AOP solution. The AOP treatment process provides assurance to residents that the City will continue to deliver high quality drinking water that exceeds all current health standards to their homes and businesses.

Construction started in September and will continue through the summer of 2017. The AOP expansion is located on the site of the former basketball court at Water Tower Park, and is anticipated to be fully on-line and operational by August next year.

#### AUTOMATIC EMAIL NOTIFICATIONS!

Sign up to receive updates on any of these projects. Visit [www.ci.saint-anthony.mn.us](http://www.ci.saint-anthony.mn.us) and select Email Notifications located on the left sidebar.

### HELP KEEP OUR WATER BODIES CLEAN

by Jeremy Gumke, Public Works Superintendent

**D**id you know storm drains are connected directly to our rivers, lakes, and streams? Debris in the street is collected in these drains and deposited in our water bodies. An important management step we can take to protect our surface waters is to prevent turf grass clippings and leaves from entering the storm water drainage system. Loose turf grass clippings and leaves left on hard surfaces like sidewalks and streets will wash into the storm drains and are then deposited into our water bodies. Turf grass clippings and leaves contain phosphorous, which promote algae growth making our rivers, lakes, and streams green and scummy. Here are a few things you can do to help keep our water bodies clean.

- Direct clippings away from hard surfaces. If clippings are left on hard surfaces, rain will wash them into the storm drain and they will flow into our water bodies.
- Clean up clippings that land on hard surfaces. Sweep or blow them back onto the turf, collect for composting, or bag and dispose of in designated yard waste receptacles.
- Leave clippings on the turf. Grass clippings left on the turf will break down and act as a round of fertilizer, promoting thick and healthy growth.
- Rake or mulch leaves: Leaves that are left to blow through the City may end up in storm drains and are then deposited into our water bodies.

For more information on storm water management or turf grass maintenance, contact the Public Works Department at (612) 782-3441.

## LAND LINE OR CELL PHONE, WHAT'S THE DIFFERENCE?

by Jim South, Police Officer

**W**ell it's that time of year again, the kids are back in school and many of them are home alone for periods of time prior to our arrival from work. If there is an emergency at home, is there a cell phone available or do you have an old fashioned phone that plugs into the wall?

With today's ever changing technology and phones that are essentially computers, many of us have decided to do away with our land line and use our cell phone as our primary means of communication. Is this the best option?

A cell phone is a great device and is very handy to have with us at all times. Is it the best way to call 911? When dialing 911 from a cell phone you are not guaranteed to reach the Hennepin County Dispatch Center. Your

connection to a dispatch center lies solely on which cell tower you reach and where it decides to route your call. In the City of St. Anthony, it is possible to reach one of four dispatch centers, Hennepin County, Anoka County, Ramsey County or Minneapolis. Once you reach the dispatch center, they do not know what address you are calling from and they will need to know which dispatch center to connect you to. If you live in St. Anthony, you need to reach Hennepin County Dispatch. Once you make contact with them you will need to tell them your address and then the nature of your problem. If there is a babysitter or nanny at home, do they know your address? If you are unable to talk, it will be difficult for dispatch to know where you are other than some coordinates and a general area. This is problematic for first

responders as there are many houses within a certain radius of the coordinates. If the power is out and your cell phone is low on battery power, you may not be able to charge it.

A land line is much more simple. When you dial 911, it goes directly to Hennepin County Dispatch and gives them your exact address. If your power goes out, the telephone line should still work unless your lines get pulled away from your house by a falling tree branch. If someone unfamiliar with your address is at your home or if you are unable to speak, dispatch will be able to advise first responders where to go.

Though it costs a little extra money each month, a landline is a very beneficial home safety device.

## WINTER PARKING AND SNOW PLOWING

by Jay Hartman, Public Works Director

**D**uring the winter, the number one priority of the Public Works Department is to clear the snow and make St. Anthony's streets safe for traffic and emergency vehicles. Here are a few reminders to assist residents in achieving this goal:

Residents are NOT allowed to park on ANY street for a period of 48 hours, beginning immediately after two (2) inches or more of continuous snow fall or until the snow removal has been completed from curb to curb.

The City understands that sometimes the schedule for snow removal doesn't correlate with residents' snow shoveling schedules. The snow plow drivers do their best to avoid pushing windrows of snow back onto freshly shoveled driveways or sidewalks.

Remember it is dangerous for children to dig tunnels

in the windrows of snow created by the snow plows. Tunnels can cave in, smothering the child. Plow drivers can't see children playing in or around the windrows and they can be covered or trapped in the snow.

Other ways to assist with snow removal operations include:

- \*Don't place refuse or recycling containers in the street; and

- \*Don't plow, blow or shovel snow into the street; and

- \*When shoveling, pile snow downstream of the plowing operations to minimize snow left in your driveway; and

- \*Stay back when driving behind plow trucks.

With your cooperation, snow removal can be more efficient and roads cleared in very little time. If you have any questions regarding our snow plowing procedures, contact Jay Hartman, Public Works Director by email [jay.hartman@ci.saint-anthony.mn.us](mailto:jay.hartman@ci.saint-anthony.mn.us) or call 612-782-3314. We appreciate your cooperation during snow plowing events.

## DON'T WAIT CHECK THE DATE

by Mattie Jaros, Firefighter

**F**ire Prevention week is upon us once again. Each year the National Fire Prevention Association releases a campaign; a campaign to initiate conversation and learning for all age levels. This year's theme is "Don't Wait-Check the Date! Replace Smoke Alarms Every 10 Years".

Now, I know what you are probably thinking, wasn't last year's theme regarding smoke alarms? You are right! In fact, this year's theme rounds out NFPA's 3 year effort to educate the public about the importance of smoke alarms. NFPA conducted a survey and found that the public has many misconceptions about smoke alarms. For example, only a small percentage of people know how old their smoke alarms are or how often they need to be replaced.

This year's theme has some pointers on helping to keep your smoke detectors in working condition:

- Smoke alarms should be replaced every 10 years.
- Make sure you know how old all the smoke alarms are in your home.
- Finding the date of your smoke alarm is easy. Simply by looking on the back of your alarm. If it's older than 10 years from that date listed then you should replace it.
- When you install your new smoke alarm make sure to write the date on the back of it so that you don't have to search for it next time.

To research further on the subject or to find out more about past fire prevention week themes, you can visit the National Fire Prevention Association's website at [www.nfpa.gov](http://www.nfpa.gov).

## CITY COMMISSION OPPORTUNITIES

The City of St. Anthony is seeking applicants for the Planning and Parks Commission. The **Planning Commission** will have two seats available beginning January 1, 2017. This is a paid per month governing body which makes recommendations to the City Council on planning issues such as variances, conditional use requests, zoning issues, etc. This commission meets on the fourth Monday of every month at 7 pm in the Council Chambers.

The **Parks Commission** will have three seats available beginning January 1, 2017. This is a volunteer group which advises the City Council on promotion of the systematic, comprehensive, and effective development of St. Anthony's park facilities. This commission meets on the second Monday of each quarter at 7 pm in the Council Chambers.

If you are interested in becoming a member of the Planning or Parks Commission, you can complete a Commission Application form that is available on our website at [www.ci.saint-anthony.mn.us](http://www.ci.saint-anthony.mn.us) or you can pick one up at City Hall. The deadline for submitting an application is **Friday, November 18, 2016**. Please return the completed application form to:

City Clerk  
City of St. Anthony  
3301 Silver Lake Road  
St. Anthony, MN 55418  
or email: [nicole.miller@ci.saint-anthony.mn.us](mailto:nicole.miller@ci.saint-anthony.mn.us)

## RAIN, RAIN GO.....

by Shelly Rueckert, Finance Director

“A way” as the classic rhyme goes, but that resulting stormwater is another story. The proper management of stormwater is an important element in keeping our lake and river environments healthy. Therefore the City has been actively managing the collection, storage and discharge of stormwater for decades. Technologies to improve the water quality of the discharged stormwater have evolved. The City has embraced the use of these new technologies. The maintenance of these systems is funded by quarterly stormwater charges. The 2015 biennial League of Minnesota Cities survey of quarterly stormwater charges for single family homes within Hennepin and Ramsey County’s determined an average charge per household of \$14.20, with Saint Anthony included at \$14.40.

The City of Saint Anthony Village uses these resources to support the following activities:

- Stormwater retention pond maintenance - 5
- Stormwater reuse and treatment systems – 3
- Stormwater collection systems – street based
- Local flood improvements
- Planning and reporting documentation required by various local and state agencies

The City has also received significant grant proceeds to assist with the construction of a stormwater reuse system, two stormwater treatment systems along with the upcoming Mirror Lake flood control project.

The ‘takeaway’ here is the City’s stormwater management practices are indicative of its overall approach to act and manage for a sustainable environment.

## PARKS COMMISSION

by Scott Bentz, Chair of Parks Commission

The Saint Anthony Parks commission is a 5 member advisory commission appointed by the City Council. This year, with the help of our GreenCorp intern Kristin Seaman, St. Anthony was able to be designated as a Tree City USA. This will help St. Anthony ensure a sustainable plan for tree care and planting for the future.

Other projects we have worked on are exploring bike and pedestrian routes to include in the Comprehensive Plan and increasing pollinator plantings around the city.

If you have any suggestions for our parks, feel free to attend one of our upcoming meetings or email Jay Hartman, Public Works Director at [jay.hartman@ci.saint-anthony.mn.us](mailto:jay.hartman@ci.saint-anthony.mn.us)

## Free Computer & Cell Phone Recycling

Other Items Accepted - Fee Noted Below (cash or check accepted)

**Sponsored by: Saint Anthony Village**

**Saturday, October 15th, 9:00am - 12:00pm**

Saint Anthony Village City Hall, 3301 Silver Lake Rd NE, St Anthony, MN 55418

### FREE Items to Bring:

Laptops & Desktop Computers  
CPUs, Memory & Disk Drives  
Flat Panel Monitors (unbroken)  
Cords, Cables, Christmas Lights & Mice  
Cellphones, PDAs & Tablets

### Items NOT to Bring:

Refrigerators or Freezers  
Washers, Dryers or Heaters  
Water Heaters or Dishwashers  
Alkaline Batteries  
Bulbs

### Items with a FEE to Recycle:

CRT/Tube TVs & Monitors <20": \$15  
Flat Panel TVs (Plasma/LCD/LED): \$20  
CRT/Tube TVs & Monitors 21-25": \$25  
CRT/Tube TVs & Monitors >25": \$50  
Console & Rear Projection TVs: \$75  
EnviroCharge if TV or Monitor is broken: add'l \$15

[Recycling fees are necessary to cover the increasing costs of processing]

## FALL IS IN THE AIR!

by Mike Larson, Operations Manager

St. Anthony Village Wine and Spirits!

Our Municipal Liquor Stores contributing to the community since 1948

**F**all is in the air and the holiday season is approaching fast! The cooler weather is a great time to enjoy the outdoors. Full bodied beers, bourbons and red wine become more popular selling items when the season changes to warm fall days and cool evenings. We stock over 1400 labels of Spirits, 1700 labels of Beer and 1800 labels

of Wine. We carry a large selection of very popular local products also. New products are streaming in every week! Gift sets and products for that hard to buy for person will be available in December, just in time for the holidays!

Stop in and check out our sale items and selection.

Visit our web site at [www.stanthonyvillagewineandspirits.com](http://www.stanthonyvillagewineandspirits.com) for store flyers, valuable coupons and events occurring at the stores. Take advantage of our Senior Citizen and quantity purchase discounts. You can also find us on Facebook and Twitter.

We look forward to serving our customers and St. Anthony Village! The money you and your neighbors spend at St. Anthony Village Wine and Spirits stays in the community! Please contact me if we can assist you with anything that would provide a better shopping experience for you and your fellow residents. I can be contacted by phone at (612) 782-3455, or feel free to email me at [mike.larson@ci.saint-anthony.mn.us](mailto:mike.larson@ci.saint-anthony.mn.us). Thank you for allowing us the opportunity to serve you!

## PLANNING COMMISSION

by Jim Gondorchin, Chair of Planning Commission

**T**he Planning Commission is a seven-person body meeting the fourth Monday evening of each month at 7PM in the City Council Chambers. Typical agenda items include: land use and development, city ordinance modifications and variance requests made by both residents and businesses.

With summer nearing its end, the frequency of commission meetings dedicated toward tuning and driving toward finalization of the Comprehensive Plan increases - calendar year end 2016/first quarter of 2017 is the desired target.

As noted, the Comprehensive Plan impacts core elements of its residents; housing options, redevelopment, road configuration, parks, water resource policy and land use in general. The plan is forward looking with community engagement encouraging balanced input from all demographic categories - find your way to participate.

Enjoy what remains of summer and prepare for a splendid fall – the Old Farmer's Almanac predicts a winter colder than normal with snowfall above normal from Minneapolis eastward.

## PLANNING UPDATE

by Breanne Rothstein, City Planner

**B**y all accounts, St. Anthony is a leader among cities when it comes to promoting community sustainability. The City has welcomed a number of innovative stormwater management systems, and supports an active Citizens for Sustainability group whose initiatives range from bicycle advocacy to mapping pollinator gardens. Whether by achieving the highest level as a member of the voluntary GreenStep Cities program or through its recent recognition as the recipient of the League of Minnesota Cities' 2016 Sustainable City Award, the City continues to demonstrate its commitment to sustainability in a number of high-profile ways.

Along with every municipality in the Twin Cities Metropolitan Area, St. Anthony is now entering the process of updating its comprehensive plan. A comprehensive plan is a guiding document which aligns local and regional policy and outlines community goals and future policy directions. Cities are required by the Metropolitan Council to address particular elements such as land use, affordable housing, transportation, and

water resources. Sustainability is not a required comprehensive plan element – but its inclusion is strongly encouraged. In St. Anthony, a decision was made very early to seize the opportunity in this planning process to showcase the City's commitment to community sustainability. The City continues to hear from

at [stanthonycompplan.mysidewalk.com](http://stanthonycompplan.mysidewalk.com) has often turned to resiliency, equity and environmental concerns.

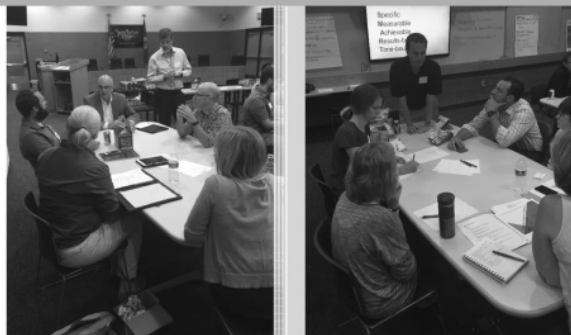

On June 30, a group of City leaders participated in a PLANBuilder workshop facilitated by the U.S. Green Building Council Minnesota. The purpose of the workshop was to collaboratively

develop key sustainability goals that will guide and support the comprehensive plan process. Some themes that emerged from this goal-setting workshop include the incorporation of transit and alternative modes into the transportation plan, investments in sustainable landscapes and infrastructure practices, setting attainable energy reduction goals, and

equity in sustainability initiatives. The comprehensive plan Steering Committee and city staff will look to the goal framework developed in the workshop to structure future discussions of sustainability in the comprehensive plan.

There are many details about the comprehensive plan update that remain to be decided. The next Steering Committee meeting will focus on sustainability and how to effectively incorporate this priority topic into the final plan.

St. Anthony Village PLANBuilder  
ADVANCE: Community  
June 30, 2016

its residents that sustainability issues are important. A community visioning exercise held in the spring asked participants to identify high priority issues and opportunities for St. Anthony to address, and concerns about how to reduce energy consumption and pollution were brought up at every small group table. The Citizens for Sustainability group has conducted visioning exercises and shared those results with city staff, and the conversation in the online comprehensive plan public forum

## ST ANTHONY VILLAGE AREA CHAMBER OF COMMERCE UPCOMING EVENTS

### Chamber of Commerce Coffee Club - Free Networking Meeting

Wednesday, October 12, 2016 @ 7:30 a.m.

The Coffee Shop Northeast - 2852 Johnson Street,  
Minneapolis

Start your day with the St Anthony Village Area Chamber of Commerce - make valuable business connections - find out about upcoming Chamber events and ways for you to get involved! Stay for a quick cup o' joe or for the entire hour!

### Adopt-A Family Kick-Off & Happy Hour

Thursday, November 10, 2016 @ 5:00 p.m. - 7:00 p.m.

The Village Pub - 2720 County Road 88, St  
Anthony Village

Please join us and help kick off our annual Adopt-A-Family drive! Each year the Chamber and our members collect funds for the Adopt-A-Family program, which is designed to help St. Anthony families in need with holiday gifts and food purchases. The Village Pub will be offering Happy Hour Drink Specials and will have a free appetizer buffet set up for Chamber members.

Sponsored by The Village Pub

For more information on these and other events please  
visit the chamber website [www.saintanthonychamber.org](http://www.saintanthonychamber.org)

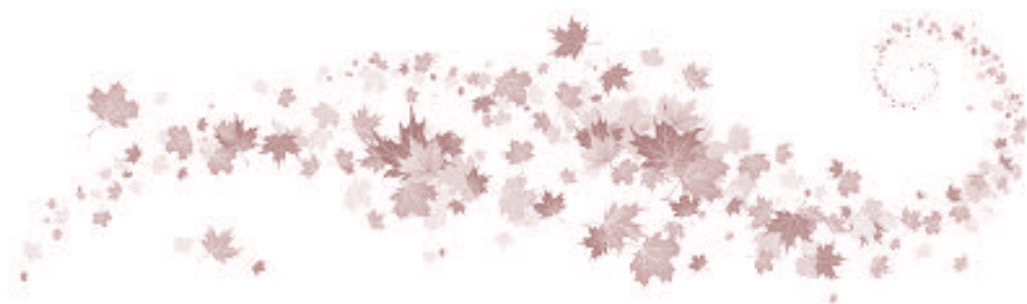

### FALL FIX UP

It is not too late to think about home improvements before the winter chill. Don't forget the City has programs to finance your projects and rebates for investing in your home.

Free consultations are available by a professional construction expert, contracted by the City for the benefit of residents. No sales. No marketing. Call the Housing Resource Center for more information:  
(612) 588 - 3033

### SISTER CITY ANNUAL MEETING SET FOR NOVEMBER 13

Everyone is welcome to attend the St. Anthony Sister City Association annual meeting at 7:00 p.m. on Sunday, November 13, 2016, at City Hall. Enjoy refreshments and a program to celebrate our Sister City relationship with Salo, Finland. You will have the opportunity to renew your Sister City Association membership or become a new member. A brief business meeting will also take place. There is no cost to attend. Watch for more event information on Facebook, and please "Like" our page!

Village Notes is the official City newsletter for St. Anthony residents and businesses and is published quarterly. It is made possible in part by the State of Minnesota. It is printed on recycled paper with soy-based ink. EDITOR: Nicole Miller

**Remember to set your  
clocks back an hour on  
Sunday, November 6th  
at 2:00 am**

## ST. ANTHONY CALENDAR OF EVENTS

### OCTOBER

- 10- HOLIDAY - Columbus Day
- 11 - City Council meeting
- 24 - Planning Commission meeting
- 25 - City Council meeting

### NOVEMBER

- 8 - General Election
- 8 - City Council meeting 8 pm
- 11 - HOLIDAY - Veteran's Day
- 22 - City Council meeting
- 24-25 - HOLIDAY - Thanksgiving
- 28 - Planning Commission meeting
- 29 - Joint Meeting with School Board

### DECEMBER

- 5 - Parks Commission meeting
- 13 - City Council meeting
- 19 - Planning Commission meeting
- 26 - HOLIDAY - Christmas
- 27 - City Council meeting
