Re: *Weekly Update for Advanced Oxidation Water Treatment Plant*
WSB Project No. 2170-29

Trojan has been on-site over the past week working to finalize equipment placement. It is anticipated the Trojan unit start-up will be next week, with full system commissioning taking place the week of June 26th. Half of the new concrete driveway has been poured, with the remaining half to be in place by the end of the week. The work required to seal the old municipal wells will also take place beginning the week of June 26th.
