

2017 37th Avenue Sidewalk & Signal Project Construction Update #16

Current Events

Sodding installation began last week. The subcontractor will periodically be onsite to water the sod.

The painting contractor has been onsite refinishing and painting signal poles throughout the project.

Future Events

Week of September 11th (Weather Permitting)

It is anticipated the Contractor will be on-site during the week to finalize grading in preparation for the remainder of sod installation.

Tips of the Week

- Please avoid disturbing newly placed sod.
- Please stay aware of changing traffic control. Obey all speed limits, traffic control signs, and lane shifts. This is for your safety, as well as that of the construction workers.
- Be prepared for traffic control shifts in the coming weeks as the Contractor moves forward to updating the signals on the north side of 37th Avenue as well as along Silver Lake Road.
