

2018 Street and Utility Improvement Project and Appurtenant Work Construction Update #35 – 7/19/2019

Current Events

The Contractor has completed boulevard restoration and bituminous patching throughout the project and replacement of damaged sanitary sewer on Foss Road this week, week of July 12th.

Future Events

The Contractor is anticipated to complete final paving along Macalaster Drive, Foss Road, and Highcrest Road the week of July 22nd, *weather permitting*. The Contractor will begin with paving the parking bays and continue onto the roadway. Parking will be restricted along Macalaster Drive, Foss Road, and Highcrest Road and “No Parking” signs will be enforced. Access to the streets will be maintained but expect delays.

Tree replacement and remaining project cleanup is anticipated to be completed in the coming weeks.

The above schedule is tentative and is subject to change due to weather or scheduling conflicts.

Tips of the Week

- **Roadway Paving**
 - Fresh pavement is very hot, please do not walk on or touch the fresh pavement until it has been smooth rolled and had time to cool.
 - During construction hours, we ask that you limit trips in and out of the construction area on paving days to allow as much room as possible for the Contractor to work.
- Please be patient with the Contractor as the remaining work behind the curb is being completed. The trucks necessary for hauling material may cause delays on the roadway.
- Please observe posted detour and warning signs.
- Please do not park vehicles on streets under construction.
- Slow down and watch for uneven surfaces.
- Stay alert! Watch for signs, equipment, and workers
- Please remind children to stay away from the construction site, equipment, and stockpiles of materials.
- Access through the site may change throughout the day as construction progresses; your patience is appreciated.
