

2024 Street Improvement Project Construction Update # 6

Current Events

The Contractor has completed milling operations north of 33rd Ave NE and full pavement removal along Roosevelt Ave NE north of 33rd Ave NE and portions of 34th Ave NE and 35th Ave NE this week (week of July 15th).

Future Events

The Contractor is anticipated to adjust castings and gate valves beginning of next week (week of July 22nd) and pave the roadways following (middle to late next week).

The Contractor is anticipated to remove and replace deficient curb south of 33rd next week (week of July 22nd).

Please note: The roadways will remain open to traffic throughout the project; however, parking along the roadway will be restricted to allow for the replacement of curb.

The above schedule is tentative and is subject to change due to weather or scheduling conflicts.

Roadway Paving

Following paving of your roadway:

- Do not turn your wheels at a stop condition on a newly paved road to avoid leaving impressions in the pavement.
- As soon as the rollers have made a couple of passes on the fresh asphalt you may drive on it.

Lawn Irrigation and Pet Fences

If you have a lawn irrigation system or pet fence within the City right-of-way, please mark the location of the sprinkler heads before construction. This will allow the contractor to take precautionary measures to protect your irrigation system and pet fence or identify where to replace the system if it cannot be avoided.

Tips of the Week

- Please observe posted detour and warning signs.
- Slow down and watch for uneven surfaces.
- Stay alert! Watch for signs, equipment, and workers.
- Please remind children to stay away from the construction site, equipment, and stockpiles of materials.
- Access through the site may change throughout the day as construction progresses; your patience is appreciated.
