

## 2017 Street and Utility Improvement Project and Appurtenant Work Construction Update #28

### Current Events

The Contractor has completed installation of topsoil, compost, and seed throughout the entire project.

On Friday, the Contractor will be completing cleanup operations, fence installation, and landscaping repairs.

### Future Events

The Contractor has completed work throughout the project. They will be onsite periodically to water the new seed, perform cleanup operations, and complete any outstanding minor tasks.

For those of you eligible for tree replacement, you will receive a notification when the installation is to take place.

### Tips of the Week

- At this point, you can begin to coordinate work with private contractors for driveways, landscaping, and any other operations you wish to perform at your residence.
- Please be sure to have any private contractor coordinate schedules with Ben Perkey
- If your irrigation system did not get repaired, please contact Ben Perkey immediately.
