(763) 287-7182

Jay Hartman
Director of Public Works
(612) 782-3314

- > Please observe posted detour and warning signs.
- > Please do not park vehicles on streets under construction.
- > Slow down and watch for uneven surfaces.
- > Stay alert! Watch for signs, equipment, and workers.
- > Please remind children to stay away from the construction site, equipment, and stockpiles of materials.
- > Access through the site may change throughout the day as construction progresses.

Project Schedule

As previously indicated, the project is to be completed in phases to allow access to properties as feasible:

Phase 1: MacAlaster Drive

Phase 2: Foss Road

Phase 3: Highcrest Road

Phase 1: The Contractor has not yet begun construction operations along MacAlaster Drive. Additional information will be provided once the Contractor schedules this work.

Phase 2: The Contractor has completed utility work on the north end of Foss Road and has begun building the roadway section. Once the roadway has been constructed to class 5, the Contractor will continue south on Foss Road with removing the pavement and installing utilities.

Phase 3: The Contractor has completed sanitary sewer installation along Highcrest Road and will continue with watermain and storm sewer installation throughout the week. Following storm sewer installation, the Contractor will begin building the roadway section. Additional information will be provided once the roadway has been constructed to a drivable surface and the temporary roadway is removed.

The above schedule is tentative and subject to change due to weather or scheduling conflicts.

Construction Education and Safety Meeting

You are welcome to attend a construction education and safety meeting on Wednesday, August 15, 2018, at 5:00 pm at the corner of Foss Road and Chandler. See insert included with this letter for more information.

Changes to Construction Schedule

Please be aware the construction schedule may change throughout the project as a result of weather conditions or other activities beyond the contractor's control. Should a major change in the schedule be anticipated, we will do our best to communicate the change through this newsletter. Residents are encouraged to sign up to receive weekly email updates and notifications (see "Email Notifications" section below) to keep updated on changes to the construction schedule as the information becomes available.

Questions?

If you have any questions or concerns, Ben Perkey is the quickest way to receive answers to your questions. If Ben is unavailable, please call Justin Messner at the number provided.

Thank you for your patience

The project team will do its best to complete the project in a timely fashion and minimize disturbances to your property. Please be patient and if you have questions, call us!

Email Notifications

Sign up to receive weekly email updates and notification by visiting the 2018 Street & Utility Improvement Project webpage located under "Community Projects" on the City's website at <http://www.savmn.com>.
