

## HOW TO USE THIS GUIDE:

St. Anthony city codes are designed to prevent offensive or harmful conditions and activities for St. Anthony Village residents and business owners. It is the resident's responsibility to adhere to the code. This document provides the primary requirements and expectations.

**Section 97.10** in City Code covers address numbers required on buildings. For emergency personnel to quickly and easily identify your location, the Saint Anthony Village Zoning Code requires all properties display legal address numbers as specified.

DESCRIPTION	GENERAL REQUIREMENT
<b>SPECIFICATION</b>	<ol style="list-style-type: none"> <li><b>1. Single and 2-Family Dwellings</b> <ul style="list-style-type: none"> <li>- Owner must post correct street or avenue number of the building in a conspicuous place both on the front and rear of the building</li> <li>- House numbers must be Arabic numerals (1, 2, 3) and a contrasting color to building.</li> </ul> </li> <li><b>2. Size &amp; Distance Guide</b> <ul style="list-style-type: none"> <li>- Numbers must be at least four (4) inches high when distance is 70 ft or less from street</li> <li>- Numbers must be at least five (5) inches high when a distance of 71 ft. or greater from street</li> </ul> </li> </ol>

## EXAMPLES OF PROPER & IMPROPER NUMBER SIZE & CONTRAST

Good **size** and **contrast** for identifiability on structure

Problematic **size** and **contrast** for identifiability on structure

## GUIDE TO PROPERTY ADDRESS IDENTIFIERS

DESCRIPTION	GENERAL REQUIREMENT
<b>LOCATION</b>	<ol style="list-style-type: none"> <li><b>1. Front Numerals</b> <ul style="list-style-type: none"> <li>- Must be posted on front of building surface nearest the street or avenue</li> <li>- Must be at a height and position so they can be read easily by a person with normal vision while seated in an emergency vehicle on the street.</li> </ul> </li> <li><b>2. Rear of Buildings Numerals</b> <ul style="list-style-type: none"> <li>- Only required for dwellings with alley or other public access at rear of lot or parcel on which building is located.</li> <li>- Must be posted on building surface nearest the alley or other rear public access.</li> </ul> </li> <li><b>3. Obstructions</b> <ul style="list-style-type: none"> <li>- Avoid hanging decorations, plants, vegetation that will obstruct view from street</li> <li>- Porch roofs can obstruct and shade numbers above door</li> </ul> </li> </ol>

### EXAMPLES OF IMPROPER LOCATION

Not on building, and not an expected location for fire and police to look

Not on building, and not an expected location for fire and police to look

Hanging decorations

Vegetation

Porch roof creates obstruction & shading of numbers above door

Numbers placed in front of porch roof eliminates obstruction & shading
