Re: 2024 Street Improvement Project

City of St. Anthony Village, MN  
WSB Project No. 023088-000

Dear Resident/Owner:

Your property is included in the City's upcoming 2024 Street Improvement Project. The project includes surface improvements to the streets in the 2024 project area (see enclosed map). The 2024 Street Improvement Project has been identified within the City's Capital Improvement Plan. A neighborhood meeting was held on October 11, 2023, and the presentation slides can be found on the City's website.

Expect to see a televising crew (Hydro-Klean) in the project area televising the existing sanitary sewer mains beginning the week of October 16, 2023. This information is being collected to review the condition of the existing sanitary sewer mains so repairs, if necessary, can be incorporated into the street improvement project.

In preparation for completing the plans and specifications for the project, a drone will be used to collect topographic survey data for the streets located within the project area. The drone is scheduled to be in the area towards the end of October. A brief article regarding the drone survey was included in the most recent City newsletter.

Please feel free to contact me at 612.282.3641 or [kkoscielak@wsbeng.com](mailto:kkoscielak@wsbeng.com) with your questions, comments, and concerns as they arise throughout the project.

Sincerely,

A handwritten signature in black ink that reads "Katie Koscielak".

Katie Koscielak  
Project Manager
