

## We would like you to attend our Construction Education and Safety Meeting

The Cities of St. Anthony and Columbia Heights invite you to attend a public education meeting where we will discuss and share information about Street and Utility construction.

Do you want to know:

- Why do you dig through the road more than one time?
- How does an excavator work?
- Ever want to touch a dozer?
- What are the most common types of construction injuries?
- How can I navigate a construction site without risking injuries to the workers?
- Can my kid climb on the equipment?
- What is the proper technique for leaning on a shovel?
- What is a sheeps foot, and why is it important?

Join us at the meeting, where you will learn answers to these questions and more!

### **WE WELCOME ANY QUESTIONS YOU MAY HAVE!**

**WHERE:** In the parking lot of “The Unofficial” at 3701 Stinson Blvd, St. Anthony, MN

**WHEN:** Thursday, May 19, 2016, at 3:00 p.m.

If you have any questions but are unable to attend, please call me at 763-287-7182.

Thank you,  
Todd Hubmer  
City Engineer
