Re: 2017 Street and Utility Improvement Project
Storm Sewer Televising Findings
City of St. Anthony Village, MN
WSB Project No. 2170-340

Dear Resident/Owner:

In the fall of 2016, the City of St. Anthony Village City televised the existing sanitary sewer main and services within the project area for the 2017 Street and Utility Improvement Project. Individual sanitary service conditions were documented from the sanitary sewer main within the roadway to the connection at the individual homes as feasible. Several properties have areas in need of repair or correction.

The City of St. Anthony Village invites you to attend an Open House Meeting to discuss the findings of the sewer service televising. This Meeting will be held at St. Anthony City Hall on: **Thursday, April 20, 2017, from 7:00 to 8:00 p.m.**, in the Council Chambers. Televising of your property is available for your use. If you are unable to attend the meeting and/or would like to obtain a copy of the televising of your individual property, please contact me at 651-286-8465 or jmessner@wsbeng.com to discuss findings for your property.

This meeting will also provide you with the opportunity to discuss required sewer work with your neighbors. Neighborhood collaboration could lower overall contractor's costs for the work that is needed. The following contractors have completed similar repairs and may be available for you to hire for work needed at your property:

- MBI Pipelining Services: (262)790-5060
- Gene's Plumbing: (612) 781-3737
- Trenchless Pipe Repair: (651) 674-8520
- Ellingson Companies: (507) 527-2294

Repairs are best scheduled after the City has completed replacement of the new storm sewer service to your property.

The City of St. Anthony Village would like to thank you in advance for your cooperation with this process as we strive to improve and maintain our infrastructure. If you have any questions, please feel free to contact me at 651-286-8465.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Messner".
