- > Please observe posted detour and warning signs.
- > Please do not park vehicles on streets under construction.
- > Slow down and watch for uneven surfaces.
- > Stay alert! Watch for signs, equipment, and workers.
- > Please remind children to stay away from the construction site, equipment, and stockpiles of materials.
- > Access through the site may change throughout the day as construction progresses.

### Project Schedule Update

The Contractor has substantially completed construction operations for 2017, including installation of topsoil, compost, and seed throughout the entire project. The Contractor will be onsite periodically to water the new seed and perform cleanup operations and will resume in the spring of 2018 to complete final wear course paving and miscellaneous warranty items.

### Trees

The Contractor has ordered the trees to be installed this fall. If you have not already, please contact Ben Perkey at (612) 360-1319 to discuss your preferred location.

### Caring for your newly seeded lawn

Please don't hesitate to water your lawn if it is a hot day and you notice the seedbed is dry. Any additional watering you can provide will only result in a healthier thicker lawn.

Please refrain from walking on or mowing your new lawn throughout the fall season.

***Please refrain from mowing your lawn shorter than 3.5-inches for at least one year following seed placement and continue to water your lawn at least 2-inches of water a week, especially during the months of June, July, and August.***

Enclosed is an informational pamphlet regarding to the maintenance and care of your newly seeded lawn.

### Questions?

If you have any questions or concerns, Ben Perkey is the quickest way to receive answers.

### Thank you for your patience

The project team will do its best to complete the project in a timely fashion and minimize disturbances to your property. Please be patient and if you have questions, call us!
